

Lessons identified notification

Guidance according to the exercise directive:

This picture should include the following **Key Issues**

1. Knowledge of the system : We have trained people for using SSN
2. Contact between the daily user of SSN and the oil spill preparedness and response body in the respective country : We had straight contact between user and response body.
3. Challenges because of the use of the training environment: We have not used it enough – so far.
4. Any other issues: -

Request for assistance

Guidance according to the exercise directive. For further details see notes

Key Issues

1. Knowledge of the CECIS and requests for assistance process: We have knowledge of the CECIS and requests for assistance process.
2. We have in the real situation ability to offer assistance. In this SCOPE process we have earlier decided not to be able to offer assistance/participation with vessels or equipment.
3. Any challenges with the CECIS command post exercise module compared with the "original" version : -
