**SCOPE**  
2017 Skagerrak

## From the application

“implement correct notification measures nationally and internationally, including activation of the mechanism and the mobilisation of international support (Copenhagen agreement, EU, Bonn agreement) by using the CECIS marine pollution platform”

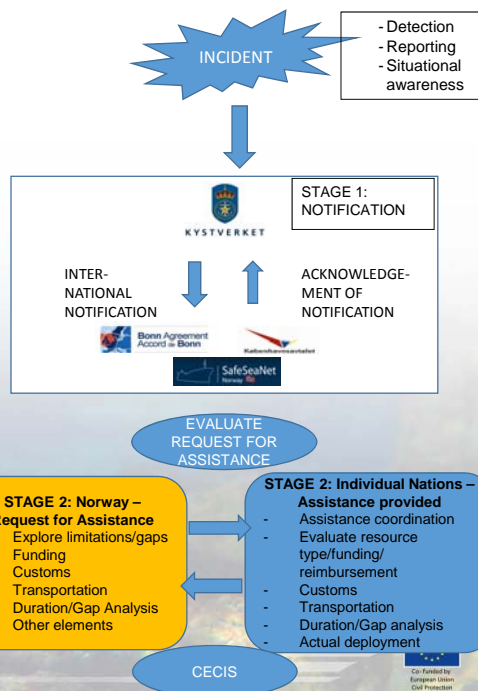

## Objectives according to the exercise Directive

- **Objective 1: Test and evaluate the incident notification by using SSN**
- **Objective 2: Test and evaluate the Request for Assistance procedures by using CECIS Marine Pollution Database**
- **Objective 3: Test and evaluate country specific internal procedures for offering assistance.**
- **Objective 4:** Submit updates (through the respective secretaries) for all applicable sections and forms within the manuals/plans/guidelines, after exercising internal national protocols specific to NaRA.
